## F&S 63

Bandolera, the latest offering from F & S Boatworks, features a 63-foot cold molded hull with a unique "stepped" design with the flare and sea keeping capabilities of a Carolina-style boat. According to Jim Floyd of F & S Boatworks, the "stepped" hull design offers stability on the troll while also providing superior trackability in a following sea and a very soft entry in a head sea. A three-stateroom layout with heads and showers in each has the master stateroom to port with a queen size island bed while the guest stateroom forward offers a double bed below with single bunk above. The crew's quarters are located to starboard with upper and lower bunks. The salon has an L-shaped sofa with rod storage below to port and cabinets containing a Sub Zero wine cooler and electric panel to starboard. Forward to port is a large peninsula galley with under counter Sub Zero refrigerator and freezer plus all the cooking essentials. To starboard is a large booth-style dinette with drawer storage under the table and seats. Corian countertops adorn the heads and galley. Forward of the dinette, a cabinet drops down to reveal a 37-inch flat screen television. All the cabinetry throughout is satin finished cherry. The cockpit features mezzanine-style seating with cooling misters above plus bait freezers, icemaker, tackle center and refrigerated drink box. The fly bridge features the helm to starboard and bench seating with rod storage below to port and U-shaped seating forward of the helm. Twin Caterpillar C-32 diesels provide a cruising speed of 36 knots at 1950 RPM's while wide-open throttle provides speeds in excess of 40 knots.
